

Anthropology

Ellia Boostani

Submitted by Phyllisa Eisentraut

Ellia Boostani has consistently shown intelligence, inquisitiveness, and a desire to help others that may be struggling. As a declared Anthropology major, she has done outstanding work in a wide variety of anthropology classes dealing with religion, culture, archaeology and biology. It has always been a pleasure to have Ellia in class, hear thoughtful comments and interpretations of hers, and watch her give aid to those around her, consistently going above and beyond in her work and cooperative endeavors. She is also a Phi Theta Kappa Honor Society member.
